How it works

Specifically designed to improve the coverage, uptake and efficacy of pesticides affected by water quality.

Benefits

- Improves spray coverage and uptake
- Improves speed of action
- Minimises impact of hard water
- Minimises impact of high pH water

Water		Foliar		
pH buffer	Water condition	Wetting	Spreading	Penetration
✓	✓	✓	✓	✓

Nelson is the ideal solution where water conditioning, pH buffering and improved coverage and uptake are all required.

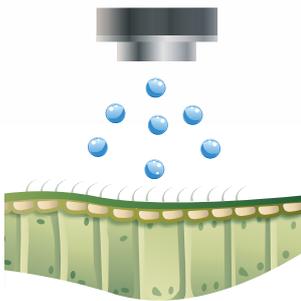

Pack size 5 litre standard

Dose rate 0.5 l/ha

Nelson Adjuvant, Ph Buffer and Water Conditioner

Water

pH buffer
Water conditioner
Improved water quality

Droplet impaction

Surface tension reduced
Impact (droplet bounce) and run off losses minimised
Improved coverage
Increased adhesion

Contact and penetration

Increased droplet contact
Negative effect of surface hairs / scale on droplet suspension above surface reduced
Effects of alkaline leaf surface minimised
Increased penetration through waxy cuticle
Higher efficacy
